

Technical Data Sheet

ROUND SIDE OF CHASSIS HYDRAULIC OIL TANKS

Hydreco hydraulic tanks are available in a range of capacities and dimensions to suit the most common applications for today's industry.

Made from either Steel or Aluminium, the round side of chassis hydraulic tank is designed to mount to the side of the truck chassis.

Our tanks come complete ready to bolt on to your truck.

Note: Hydreco recommends that a high pressure filter be installed on the discharge side of the hydraulic pump.

Product Features

All Tanks Come Complete With:

- **Brackets and Straps**
Ease of mounting reduces fitting time.
- **Breather**
Maintains tank pressure at atmospheric and allows oil filling.
- **Sight Glass**
Allows easy access to check oil level and condition.
- **1 1/4" BSPT Outlet and Return Ports**
Large port for high flow and low pressure drop.

Technical drawing of the watch case showing dimensions and features. The drawing includes a side view on the left and a top view on the right. Key dimensions and features are labeled:

- Case Diameter:** 50 mm (indicated by a dimension line across the top view).
- Case Thickness:** 5 mm (indicated by a dimension line on the side view).
- Case Width:** 175 mm (indicated by a dimension line at the bottom of the side view).
- Case Height:** 127 mm (indicated by a dimension line on the right side of the side view).
- Case Shape:** The case is round with a diameter of 50 mm. The side view shows a curved profile with a thickness of 5 mm.
- Case Features:** The case has a crown at the top and a pusher at the bottom. The crown is labeled with a dimension of 4.5 mm. The pusher is labeled with a dimension of 5.5 mm.
- Case Material:** The case is made of stainless steel (indicated by the text "Stainless Steel" on the side view).
- Case Color:** The case is black (indicated by the text "Black" on the side view).

* Tank comes with one centrally mounted bracket and strap
